

165TH TREMPEALEAU COUNTY FAIR JULY 13TH-16TH, 2023

www.trempealeaucountyfair.com

The Trempealeau County Fair Board dedicates the 2023 Fair Book to the 100th Anniversary Of the Glasgow-Hardies Creek Busy Bees 4-H Club!

In 1923, a small rural community nestled in between Galesville and North Bend, had a group of youth band together to form the 4-H club we know as the Glasgow-Hardies Creek Busy Bees. What started out as a few being involved in a swine club through the agriculture class at Galesville High School, blossomed into the group of the community's greatest assets; our youth.

The first club leader, Julia Ekern, may not have known that what she was investing in was going to be a century of children that would grow to be pillars of their community that provide entertainment, socialization, skill building, work ethic, and creativity, to name a few. These contributions have been passed down through the generations since we currently have a 5th generation Busy Bee.

Hundreds of Busy Bees have swarmed through our community, and we are stronger than ever. Our club has been strengthened by the tenacity coming out of the Depression Era, World War II forcing rationing, divisions in opinions, and most recently a global pandemic. All of these have made us a dynamic group that changes and conforms to better serve our community with our heads, hearts, hands and health.

Throughout the years, we have had various adult volunteers who provided a guide for our youth to carry the torch further into history. May we all thank those who stepped up to the demand of hours of rehearsing, writing, planning, and organizing activities that would "make the best better".

Despite the dwindling numbers of family farms sharing their prized animal, the lack of clothing you may see displayed that has been sewn by hand, or the bright red tomatoes that were freshly canned for the fair, know that our youth are just as productive in life skills that present themselves in 2023. They are successful in learning the life-style traits that guide us such as, Goal Setting, Cooperation, Responsible Citizenship, and Self-responsibility. It is these skills, paired with the tried and true skills from the past, that will make our youth resilient leaders in our community.

In celebration of all the work our busy "worker bees" have done over the past 100 years, we hope you will join us in reflecting on the past, a look into the future and a party that is all well deserved. So come and "bee" our guest on Wednesday, July 12th at 6pm in the newly remodeled Farm Progress Building. The laughs, treats, gifts, and barn dance will sure make a buzz throughout the county, so don't miss out!

Heidi Johnson
Glasgow-Hardies Creek Busy Bees 4-H Club Leader

Welcome to the 2023 Trempealeau County Fair!

We would like to extend our heartiest congratulations to the members of 4-H, FFA, FLA, other youth groups, their Trempealeau County leaders, Trempealeau County Extension Homemakers, and all other exhibitors. Your hard work and dedication will make this fair a great success!

(c) Premiums offered shall be definite in amount. No decrease or increase in published premiums may be made because of the financial condition or the organization or for any other reason.

(e) No fair may receive state aid for a premium awarded to any exhibitor in the open division if that exhibitor entered the same exhibit in the junior division at the same fair. Animal Health Regulations

Fairs and Shows in Wisconsin: 2023 Season

This is a summary of animal health requirements for fairs, shows and exhibitions. They are not necessarily the same as requirements for importing animals into Wisconsin or moving them within the state for other purposes. They may change if animal diseases occur in Wisconsin or elsewhere, so always check datcp.wi.gov or contact us for current information. Fairs or exhibitions may have additional requirements. Exhibitors should contact the event organizers for more information. Ref. s. ATCP 10.87, Wis. Admin. Code.

<p>General requirements for event organizers</p>	<p>All fairs or exhibitions of any length must obtain, review, and keep for five years all required records and test results:</p> <ul style="list-style-type: none"> • Exhibitor's name and address • Animal identification (number, type, description, and, when required, official identification (see <i>requirements for different animals below</i>)) • Documents showing compliance with disease testing and other health requirements • Livestock premises number, if any, where animals originated • Documentation showing legal importation to the event (if applicable) and, when required, movement to the event (<i>see requirements for different animals below</i>) • For swine, a record of any swine transported directly to a slaughtering establishment • For swine, a record of any swine transported to an animal market where all animals sold at the market sale for that day were shipped directly to a slaughtering establishment <p>Fairs or exhibitions lasting more than 24 hours must appoint a licensed veterinarian to inspect all animals daily.</p> <p>Note: Except in specific circumstances, if an animal already bears an official 840 eartag, that eartag must not be removed and additional official eartags must not be applied. Instead, the existing eartag must be read and recorded when a record of that animal is required. (Ref. s. ATCP 10.045, Wis. Admin. Code)</p> <p>These regulations apply to all fairs and exhibitions, including additional events (like rodeos, shows, or other organized events) that occur in conjunction with the fair.</p>
<p>Diseases</p>	<p>Animals that show evidence of having contagious or infectious diseases may not be commingled (or housed/kept) with other animals at a fair, show, or other exhibition in such a way as to allow disease to spread. Such animals should not attend the fair, show, or exhibition. Animals may be denied entry if they arrive at these events with contagious or infectious diseases, isolated and/or removed if they develop disease after arriving, or be subject to other action as would be necessary to control disease. (Ref. s. ATCP 10.08(1), Wis. Admin. Code)</p> <p>Bovine animals with ringworm, mange, warts or scab will be removed from the fair or exhibition premises, unless the veterinarian in charge finds warts or ringworm lesions are incapable of transmitting disease.</p>

Cattle and bison

Cattle from within Wisconsin have no requirements for tests or health documents.

Cattle from outside Wisconsin (Ref. s. ATCP 10.22, Wis. Admin. Code) must:

- Be accompanied by certificate of veterinary inspection (CVI or health certificate)^a documenting official animal identification (ID) and all required tests and certifications
- Have official individual ID (including steers)^b
- Meet all of Wisconsin's normal requirements for import (see https://datcp.wi.gov/Pages/Programs_Services/CattleBison.aspx)

Acceptable animal IDs^b for all cattle from outside Wisconsin

- USDA metal ear tag number that is part of the National Uniform Eartagging System (NUES) (starts with state 2-digit code, also known as "brite" tag); this includes the orange brucellosis vaccination tag
- 15-digit "840" tags (visual or RFID)
- Valid only if applied before March 11, 2015:

Tuberculosis (TB) requirements^c for cattle from outside Wisconsin

As of 1/1/23, all cattle from **Texas** and **Michigan's TB Free Zone** (for cattle from Michigan's Modified Accredited Zone see below), regardless of sex or age are required to have a negative TB test within 60 days prior to import.

For details and requirements by state, see:

https://datcp.wi.gov/Pages/Programs_Services/CattleBison.aspx

Cattle from Michigan's Modified Accredited Zone – Alcona, Alpena, Montmorency, and Oscoda counties - (for cattle from Michigan's TB Free Zone, see requirements by state above) also need:

Swine

Note: These regulations apply to all swine, including pet pigs and racing pigs.

Swine from within Wisconsin (Ref. s. ATCP 10.32(2) and 10.87, Wis. Admin. Code) need a Wisconsin intrastate certificate of veterinary inspection (CVI or health certificate)^a:

Note: *Herd of origin means the herd in which the pigs currently reside, likely the exhibitor's herd. When pigs are purchased from a herd, the herd from which they originate is the herd of origin for the seller. Once the purchased pigs are added into the buyer's herd (even if the buyer's herd only consists of one or just a few animals), the buyer's herd becomes the new herd of origin and that herd must meet testing requirements to move pigs again.*

- Stating that the entire herd of origin was inspected on the farm within 30 days before the show and no apparent disease was present at the time of inspection^d.
- **Non-terminal Exhibitions:** All swine must have a PRRS (Porcine Reproductive and Respiratory Syndrome) and PEDv (Porcine Epidemic Diarrhea virus) test of the herd of origin within 90 days of the exhibition^c. Include test date, type, and results on the CVI. □
Terminal Exhibitions: No testing requirements.^c

Note: *Terminal Exhibitions are those at which all the swine go directly from the fair/show to the slaughtering establishment OR to a slaughter only market sale. If going to a slaughter only market sale, contact the Division of Animal Health fair inspector for required information to collect.*

Note: *If the fair intends to use a load-out facility, contact the Division of Animal Health in advance to discuss requirements that must be met.*

Swine from outside Wisconsin (Ref. s. ATCP 10.30 and 10.87, Wis. Admin. Code) need a certificate of veterinary inspection (CVI or health certificate)^a that includes the following:

- The negative results of the PRRS test^c from the swine's herd of origin conducted within 90 days prior to movement into Wisconsin including test date, type, and results.
- The negative results of the PEDv test^c from the swine's herd of origin conducted within 90 days prior to movement into Wisconsin including test date, type, and results.
- A statement that the veterinarian has inspected the entire herd of origin within the past 30 days and that no clinical signs of PRRS and PEDv or any other apparent disease was present at the time of inspection.^d
- Official individual identification (ID)^b Acceptable methods of ID for swine are^b:
 - USDA silver ear tag
 - USDA 840 ear tag, either visual or RFID
 - Breed association tattoo if the pig is a purebred and the tattoo is registered
 - An ear tag with the premises identification number and a unique identifier □ Ear notch if the pig is a purebred and the notch is registered

Note: Microchips are not accepted as official ID for any swine including pet pigs.

Requirements are subject to change as conditions warrant. For current information and for PRRS and PEDv testing options, check

https://datcp.wi.gov/Pages/Programs_Services/SwineMovement.aspx.

Sheep and goats

Note: *These rules do not apply to non-domestic sheep and goats. See Exotic Ruminants below.*

Sheep and goats from within Wisconsin need:

- If sexually intact, need official individual identification (ID)^b *at any age*.
- If not sexually intact, need official individual ID^b if they are *12 months or older*.

- See below for additional requirements for goats from Michigan's Tuberculosis Modified Accredited Zone.
- Sheep and goats that go to a market or slaughter establishment after the fair should have an owner hauler statement to move from the fair to the market/slaughter establishment.

Official Identification^b includes:

- Scrapie eartags (including tags on neckstraps for animals with absent/injured ears or with official tattoos – see DATCP Website*)
- USDA 840 ear tags
- Legible breed tattoos (see DATCP Website* and NOTE below)
- Legible scrapie tattoos (see DATCP Website* and NOTE below)
- Approved microchips (Electronic Identification/EID) – There are many requirements that need to be met to use microchips including a requirement for accompanying tattoos. See DATCP Website* and NOTE below.
- **NOTE:** *All sheep and goats that go through a market or to slaughter and require Official Identification must be eartagged with Official ID. Official ID in the form of a tattoo or Electronic Implantable Identification (EID) is no longer sufficient when moving through a market or going to slaughter.*
- **NOTE:** *If a Wisconsin origin animal is neutered, less than 12 months of age, and moving through a market after the fair, the market may require Official ID in the form of an ear tag.*
- *For more information on official identification and for owner hauler statements see DATCP Website at https://datcp.wi.gov/Pages/Programs_Services/OfficialID.aspx

Goats from Michigan's Tuberculosis (TB) Modified Accredited Zone –Alcona, Alpena, Montmorency, Oscoda counties- also need:

Roy Berge Award~ Special Award for Best Fitted & Trained Dairy Animals:

This award is in honor of Roy Berge who had two main loves in life, cattle and kids. This was his way of rewarding youth for their efforts on preparing their animals for the Trempealeau County Fair.

Roy was employed at the Trempealeau County Health Care Center as the herdsman for many years until he retired in 1978. While employed there, he conducted many fitting and training clinics for the area youth who were interested in learning more about preparing cattle for shows. Roy appreciated the time and effort that is required to prepare an animal for showing at the fair, and felt youth should be rewarded for their hard work. Therefore, this award is to be given to the exhibitor who has the best fitted and trained animal. **Exhibitors can win this award more than one time in their junior county fair showing career, but cannot win in consecutive years.**

Award is presented at the conclusion of the Dairy Show
•Exhibitors will be selected during the Dairy Show and made aware of the need to keep the animals prepared
